Retaining International Students: Evidence-Based Initiatives & Interventions

Wednesday, January 30 ~ 3:00-4:30pm (Eastern)

Once the live date has passed, this training will be available on demand.

Overview

College campuses have become increasingly internationalized in recent decades. International student populations have grown and study abroad has become a standard of the higher education landscape. Trends indicate a need for additional support for international students attending postsecondary institutions in the United States. Recognizing the unique contribution of international students to the learning environment, this webinar will focus on strategies and programs designed to maximize international students' success.

Join us for an advanced, interactive webinar where you will learn evidence-based best practices for enhancing international student persistence to graduation at U.S. colleges and universities. A game plan will be presented for navigating the uncertain and potentially turbulent waters that lie ahead with respect to meeting the continually evolving needs of international students studying in the United States.

We'll explore successful, empirically-based programs and initiatives in international student persistence to graduation, as well as concrete recommendations as to how these services and activities can be successfully implemented in a variety of higher education environments. The focus will be on helping institutions identify the specific programs and services best suited to their particular environments as well as how to implement them in an effective and efficient manner.

Objectives:

- Learn specific orientation strategies campuses are using to help international students successfully transition into higher education in the United States
- Explore specific, evidence-based retention programs and initiatives that enhance the retention and persistence to graduation of international students
- Investigate the specific components of retention programs and initiatives programs that contribute more significantly to their overall efficacy
- Distinguish the specific steps that should be implemented prior to international students' arrival on campus to increase their probability of persistence to graduation, and how those efforts can complement and reinforce what is done once they are on campus

Who Should Attend?

- Administration
- Enrollment Management
- Faculty
- Human Resources
- Online Learning
- Student Services/Affairs
- Any educator interested in learning more about retaining international students

Speaker(s)

"The current political climate poses real challenges for international students studying at American colleges and universities. Their presence on our campuses significantly enhances the quality of the educational experience for everyone. Not only must we work to ensure institutional commitment to meeting the needs of our international students stays strong, we must do everything we can to make sure the needs of this population continue to be met in an effective, efficient, and humanistic manner."
